# WELCOME

## Message “

Dear Colleague,

I am pleased to introduce the Miller's Review Course India, a rigorous academic program designed to help you excel in your medical education and career. This course, which covers a wide range of topics, is built on a legacy of excellence, with a team of experienced faculty and a curriculum tailored to meet the needs of modern medical practice. Miller's Orthopaedic Review Courses has been instrumental in offering an unmatched review of orthopaedics facilitated by experienced, dedicated faculty.

During his Board preparation years ago, Dr. Mark Miller realised that few textbooks or courses offered concise and thorough reviews of orthopaedic topics. This was the genesis of Miller's Review of Orthopaedics, a best seller. Dr. Miller subsequently created Miller's Orthopaedic Review Courses, which is now in its twenty-eighth year.

Ever since the iconic JBJS, which is 137 years old has garnered its association and strategic partnership with the Miller's Review Course, the total academic value and standard has reached its pinnacle. It is indeed a moment of pride and joy that this monumental course, which is happening for the very first time in India, presents a unique opportunity for all of us.

At Miller's Review Course India, we are committed to providing a supportive and inclusive learning environment that fosters academic achievement, clinical expertise, and personal growth. It is indeed my honour to welcome you all to this renowned programme along with my Course Director, Dr. James Browne, who is a distinguished figure in the field of medical education. With a background in medicine and academia, Dr. Browne has dedicated his career to shaping the future of healthcare professionals. His expertise in curriculum development and educational strategies has made him a sought-after authority in the Orthopaedic community. Dr. Browne's commitment to excellence and innovation has influenced generations of aspiring medical professionals, making him a respected leader in the field.

Our goal is to empower you with the knowledge, skills, and confidence to succeed in your chosen field and to make a positive impact in the lives of your patients. We are happy to introduce our panel of top orthopaedic faculty, including Dr. James Browne, Dr. Ed McPherson, Dr. Rachel Frank, Dr. David Weiss, Dr. Brian Werner, and Dr. Mohit Bhandari. I am fortunate to lead the proficient and strong academic Indian faculty alongside the esteemed international faculty.

I welcome you to explore our brochure and discover the Miller's Review difference. Join our community of dedicated learners and experienced educators, and let us help you achieve your potential.

**Dr. Sachin Tapasvi**  
Course Director
